Update on Sharing of Educator Preparation Data

WACTE Meeting

Walla Walla, WA – April 26, 2018

What are we doing?

SHB 1741 – "must" and "shall"

Educator preparation programs

- "must collect and provide data as required for approval by the PESB to the ERDC."
- "shall enter data-sharing agreements [with ERDC] to facilitate the transfer of data required by the PESB."

ERDC

- "shall enter data-sharing agreements [with EPPs] to facilitate the transfer of data required by the PESB."
- "must hold, analyze, and make available for research and monitoring by the PESB, state-approved EPPs, and other researchers with appropriate data-sharing agreements, the data on the preparation of educators."
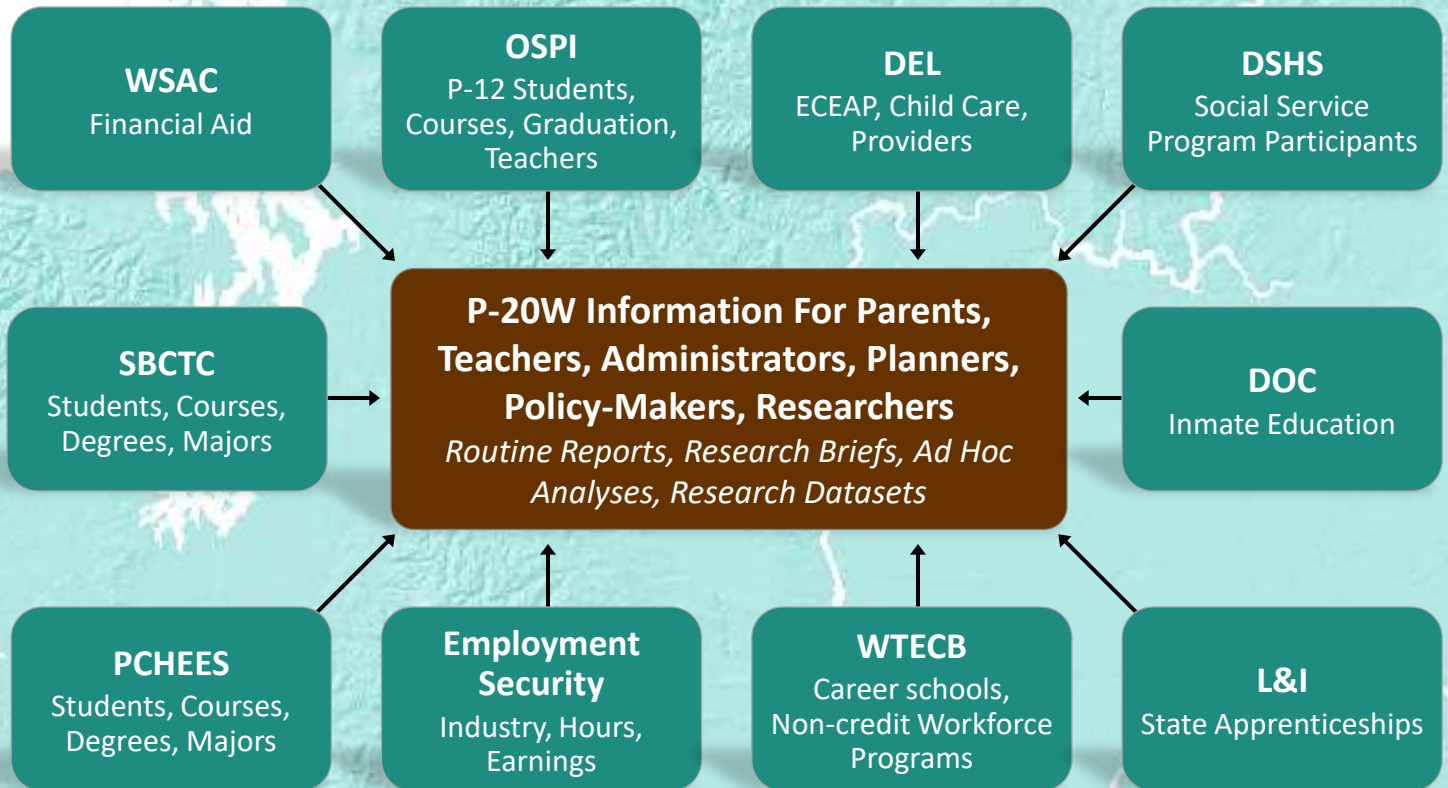

SHB 1741 – what it changes

Current process

Educator preparation programs → Collect student-level data → Package student-level data into aggregate reports → Send aggregate reports → PESB

New process

Educator preparation programs → Collect student-level data → Send student-level data → ERDC → Package student-level data into aggregate reports → Send aggregate reports → PESB

Communication plan

- ERDC will email meeting minutes after each meeting to deans/directors and data administrators after getting feedback from the task force.

- ERDC will email the agenda before each meeting to deans/directors and data administrators in order to get feedback and questions from all EPPs.

- ERDC and PESB staff will report out at PESB meetings.

- ERDC and others will report out at WACTE meetings.

- Deans/directors, data administrators, and the indicator group will be included in these communications. Institutional researchers should not be included at this time; maybe later in the process.

# When is it going to get done?

Timeline

- EPPs submit aggregate data as usual to PESB in October 2018

- Select EPPs submit select candidate-level data to ERDC for testing and quality checking in October 2018

- All EPPs submit all required candidate-level data to ERDC in October 2019 and each year thereafter

- ERDC sends aggregate data to PESB in December 2019

Questions

1. What process, communication, etc. would you like to see be included in this data governance work?

2. Are there any pitfalls ERDC needs to be aware of?

3. As we work through the data definitions process, what should ERDC make sure the workgroup keeps at the forefront of their deliberations?

4. Do you have any questions?
